PROFESSIONAL SUMMARY

Detail-oriented BCA (Data Science & AI) student with a growing focus on UI/UX Design. Skilled in user-centered design, wireframing, prototyping, and usability testing, combined with hands-on web development and data visualization experience with **MERN STACK**. Proven ability to design intuitive, accessible, visually engaging interfaces through personal and community projects.

EDUCATION

Bachelor of Computer Applications (Data Science & AI) | Babu Banarasi Das University, *Sep 2024 -2027*
CGPA: **8.41 / 10**

Relevant Coursework: Object-Oriented Programming, Data Science, Data Analysis, Databases, Big Data, Data Structures & Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Human-Computer Interaction concepts, Advanced Data Structures & Algorithms.

EXPERIENCE

UI/UX Designer | Android Lucknow (Student-Led Developer Community) *Sep 1 2026– Present*

- Collaborated with student organizers and developers to translate event concepts into wireframes and clickable prototypes using [Figma / Adobe XD].
- Contributed to **Volunteering Events and upgraded as FULL STACK DEV TEAM** student-led tech events and hackathons, gathering informal attendee feedback to iterate on design layouts.

PROJECTS

Kautik-Bazar *2026*

- A Uttarakhand specific Bazar Styled web application of products listed of Uttarakhand mainly from Kumoun Region .

Uttarakhand Hotels Listing Platform *2026*

- Designed and built a web-based listing page showcasing the geographic locations and habitats of various species found across Uttarakhand, focused on clear information hierarchy and easy navigation.
- Tools used: Figma for design, **MERN stack** for build, number of users tested, or key usability outcome

2_Numberia_Coder *2026-IN-progress*

- A Community-led website where we help students to get notified of scholarship, Internship, Hirings, and connect with mentors , post their queries, do collaborated-task, learn-by-doing, collaborated-IDE , and work.

Personal Portfolio Website *2025*

- Designed and developed a responsive, visually engaging portfolio using consistent typography, spacing, and color systems, and UX best practices for navigation and readability.

DESIGN & TECHNICAL SKILLS

UI/UX Design: Wireframing, Prototyping, User-Centered Design (UCD), Interaction Design, Visual Design, Design Thinking, Information Architecture, Usability Testing, User Research, User Personas, Design Systems, Responsive Web Design, Accessibility (WCAG basics)

Design Tools: Figma, Canva.

Full-stack-dev: JavaScript, MERN Stack, React (lib), NEXTJS (framework),

Programming Languages: Java, Python, SQL, JavaScript (Basic to Intermediate)

Data & Visualization: Excel (Data Cleaning), Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn, IBM Cognos, Power BI, Tableau

Tools & Platforms: VS Code, Git, GitHub, Postman.

EXTRACURRICULAR ACTIVITIES

- Member of Communities - **Android Lucknow** (Student-led Community for best collaboration learning) .
- Active participant in college tech events, workshops, hackathons, and exhibitions; engaged in the Hack2skill community and peer-learning groups to strengthen problem-solving and collaboration skills.
